PLACEMENT

Teacher recommendations for class placement are based on the student's understanding and application of technique and physical ability. Teachers may request new students take a "test" class prior to placing for registration. Advancement is based on teacher recommendations only after the student masters his or her current level.

We take great care in considering each and every student for placement in a level which is compatible with his or her current ability and encourages them to progress.

Inappropriate placement in an advanced level may result in injury and hinders the progress of classmates. We appreciate your understanding of this policy which permits us to give your child the individual attention he or she deserves.
